CPAC Equipment, Inc. Announces ISO Certification

CPAC Equipment, Inc., (www.cpacequipment.com) USA manufacturers of the COX Rapid Heat and SteriSure Dry Heat Sterilizers, has been recently certified under the requirements of ISO 13485:2003 for its quality management system applicable to the design and manufacturing of dry heat sterilizers and evacuation devices for dentistry, optometry, ophthalmology, and general practices. With the recent ISO Certification, CEI has been approved for Canadian Distribution of their sterilizers by Health Canada.

CPAC Equipment, Inc. has long been recognized as the leader in dry heat sterilizer technology and this recognition further confirms CPAC Equipment, Inc.'s commitment to the manufacture of quality dental and clinical patient safety and infection control equipment.
